

FORESTRY MULCHERS

PaTrizio

FAE’s small mulcher with Bite Limiter technology for tractors.

Patrizio mulcher works on trees branches and bushes up to 6 in in diameter and is great for mulching pruning debris. The rotor features Bite Limiter technology. Steel limiter rings limit the depth of cut, reducing power demand and guaranteeing exceptional performance.

Patrizio has adjustable and interchangeable bolted skids, two rows of counter blades for fine, even mulching, a hydraulic hood with built-in cylinder protected by the machine body, and a heat-treated forged-steel tooth holder with MINI BL blades and MINI C/3 teeth.
