

FORESTRY MULCHERS

# UML/LOW

Fixed-tooth mulcher for low profile tractors.

Its compact size and design features make the UML/LOW forestry mulcher perfect for tracked or wheeled tractors, even in orchards or vineyards. It works with 60-110 hp tractors and shreds bushes, branches and trees up to 8 in in diameter.

The low PTO helps the main universal joint work at the best angle, and its frame has been reinforced to withstand the axial loads caused when steering the carrier. Choose between blades or durable teeth suitable for rocky soil.

60-110 hp

Ø 8 in max

Mechanical push frame  
(optional)

Heavy duty reinforced frame

Adjustable skids

MAIN OPTIONS

Mechanical push frame  
guides and pushes material  
away from carrier

Special skids to go  
underground

Mulcher designed for tractors with a low profile PTO

STANDARD EQUIPMENT

Hydraulic rear hood	PTO shaft with cam clutch
Dual row protection chains	Bolted-on rotor shafts (in forged steel)
Transmission with belts	Welded steel counter-blades
Gearbox with freewheel	Adjustable skids
Possibility to choose Transmission 540 / 1000 rpm	

OPTIONS

Multiple tooth options	Special skids to go underground
Hydraulic top link	Mechanical guard frame
IVT - CVT or creeper transmission strongly recommended	Forestry tires and carrier belly pan strongly recommended
