

FORESTRY MULCHERS FOR EXCAVATORS

NEW BL5/EX/VT

The mulcher for largest excavators, with Bite Limiter technology.

The BL5/EX/VT for 24-36 ton excavators, mulches vegetation up to 16" in diameter and has a working width of 62". This head is ideal for handling and removing vegetation in wooded areas, especially when a large shredding capacity and fast operational speed is required. The rotor with Bite Limiter technology comes with special wear-resistant steel limiters that

limit the teeth's reach. This cuts down on power demand, promotes a consistent working speed, optimizes fuel consumption and ensures excellent performance when mulching any kind of wood.
